Wed 24/04/2024 9:00 AM

Hello to all budding "very safe" lab technicians,

as you recall last week we discussed tomoorow being a public holiday and so we are not catching up face to face. Please go to the 'assessment' option and complete the induction questionaire and upload to BlackBoard. It would be great if you have this done by week 3. You will get any addditional information from the NMTAFE website link in the PPT slides. Please also refresh yourself with the Laboratory rules which are available on the BlackBoard welcome page. **You are not permitted to be in the lab unattended by a lecturer** (as last week some students headed up to finish their evacuation plan - after the class).

Any questions, please let me know.

Regards,

Natalie
